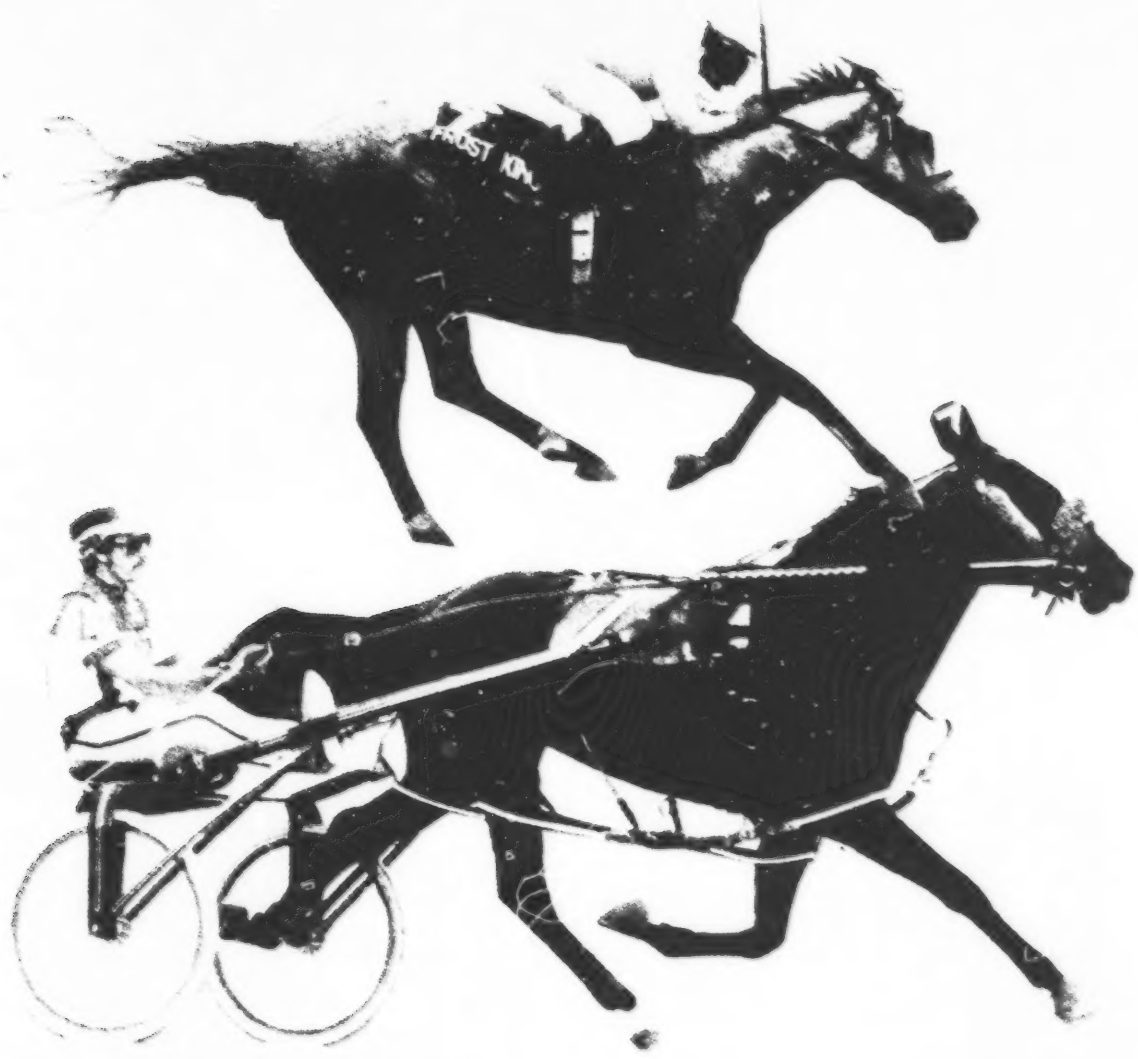
Improvement Programs



Race Tracks Tax Sharing Arrangement

The Province of Ontario receives a portion of every dollar wagered on horse racing in Ontario in accordance with the Race Tracks Tax Act. The amount of this tax is 7% on all types of wagers other than triactors which are taxed at 9%. In other words, 7¢ out of every dollar wagered goes to the Province with the exception of triactor where 9¢ is taken out.

In 1984 2% of the total amount wagered in 1983 or 2¢ out of every dollar was rebated back to the industry by the Government; in the case of triactor bets 4¢ out of every dollar wagered on triactors in 1983 was rebated.

This rebate is known as the Race Tracks Tax Sharing Arrangement and is under the direction and control of the Ontario Racing Commission.

Highlights of the 1984 Program

Standardbred

Breed Improvement Section:

Fifty percent of the 2% rebate, $5,126,100 was allotted for the funding of this section of the program which includes the Ontario Sires Stakes, Trillium Series, Breeders' Awards and a promotion and public relation section. These programs are dealt with extensively elsewhere in this report.

Overnight Purse Supplements:

After provision for equine research, 50% of the 2% rebate, $5,126,100 was declared to overnight purse supplements; as well the additional 2% triactor rebate, $2,251,100 was allocated for overnight purse supplements to the track where it had been generated.

These supplemental purse grants and their payment to the owner of competing horses in Ontario is an encouragement to investors in the Industry to continue to purchase better racing stock; as well these grants help to offset the increasing operating costs of owners.

Thoroughbred

Breed Improvement Section:

In 1984, 35% of the 2% rebate, $2,168,000 was allocated to the Breeders' Incentive Section of the Thoroughbred Program. These monies funded purse supplements to selected stakes races, filly stakes, selected colt stakes, Ontario Sires Stakes races and breeders' awards and the Yearling Sales Stakes.

Overnight Purse Supplements:

Overnight purse supplements in 1984 amounted to 65% of the 2% rebate plus the additional 2% triactor rebate which totalled $4,965,900 over the past year.

By supplementing thoroughbred purses paid to owners, the Commission and Provincial Government are encouraging owners to continue to compete in Ontario as increased purses help offset increased racing costs and keep Ontario Thoroughbred purses competitive with other jurisdictions and one step ahead of inflation.

Equine Research

The Ontario Racing Commission paid $164,500.00 in Equine Research grants to the Veterinary College at the University of Guelph. A total of $89,400.00 was used for research projects and the balance of $75,100.00 was allocated for capital expenditures on the new Equine Research Centre.

The Ontario Racing Commission approved the following Equine Research projects proposed by the Ontario Veterinary College under the direction of the Associate Dean, Research and Resources, Dr. R.A. Willoughby.

Performance problems

1. A pharmacological study of the equine hoof in relation to the etiology and therapy of laminitis or founder.
2. Challenge testing for diagnosis and prognosis purposes in horses with early signs of respiratory dysfunction.
3. Submit vaccine for equine influenza.
4. Maximizing the "cushion" effect of dirt racing surfaces for thoroughbred racing.
5. Gastro-intestinal disease/colic in the horse: coagulation abnormalities and their significance.
6. The significance of equine influenza type A-1 viral infection on the pathogenesis of chronic small airway disease in the light horse.
7. A study of feeding practices and nutrient requirements of horses at Ontario racetracks.
8. Applied research in equine anesthesia: electrocardiographic changes and methoxyflurane/halothane combinations in clinical anesthesia.
9. Seasonal deworming of mares to control strongyle parasites.
10. Serum biochemical alterations in horses following intravenous xylazine administration.
11. The role of mycoplasmas in pleuritis of horses.
12. The association of a strain of California encephalitis (CE) virus with encephalitis in horses.

Reproductive Problems

1. An investigation of mycoplasma equigenitalium infertility in the horse.
2. Hormonal diagnosis of cryptorchidism in horses.
3. The role of the fetus in the hormonal regulation of gestation in the horse.
4. A new inherited connective tissue disorder in the horse
